

MAKING YOUR DECISIONS
PERFECTLY CLEAR.

YOU'VE GOT QUESTIONS. ANDERSEN ANSWERS.

Whether you're replacing old windows, remodeling your home, or building a new house, you have lots of questions about the best way to solve your problems and fulfill your dreams. Andersen has the answers. But don't take our word for it. Instead, take it from the millions of people just like you who have gone through the same process you're going through now. For over 100 years, homeowners have turned to Andersen for answers, and in the process they've made Andersen the most enjoyed windows and doors in America. When you choose Andersen, you're not only getting superior products that perform. You're getting ultimate peace of mind. So take a closer look at Andersen® windows and doors in the pages ahead, and take comfort in your decision to choose Andersen. It's one choice that's perfectly clear.

Page 30

WHAT MAKES **ANDERSEN[®]** WINDOWS & DOORS **PERFORM?**

From energy efficiency and durability to low maintenance, Andersen designs and builds windows and patio doors that are among the best-performing products in the industry. It's been that way for more than a hundred years, and Andersen is committed to constant innovation as well as rigorous testing of performance and quality to make sure we continue setting the highest possible bar for performance. That's why peace of mind comes standard on all Andersen[®] windows and patio doors.

ENERGY EFFICIENCY

We take saving energy seriously.

Saving energy is important to us. That goes for the energy efficiency of the windows and doors we make and also for our manufacturing processes that produce them.

The easy way to compare energy efficiency.

If you'd like a quick, accurate way to compare the energy efficiency of windows and doors, just look for the National Fenestration Rating Council (NFRC) label. For details see page 18.

Energy-saving glass for any climate.

Andersen has the glass you need to get the performance you want, including a variety of Low-E glass options to help you control heating and cooling costs in any climate, plus SmartSun™ glass that meets ENERGY STAR® qualifications in all climate zones.

Take comfort in superior weather resistance.

Andersen® patio doors feature unique locking systems that pull the door panel snugly tight. The result is an enhanced weather seal, plus improved security.

Our weather-resistant construction seals out drafts, winds and water so well, you can relax in comfort whatever the weather. We carefully select weatherstripping to match each style of window and door to make sure you enjoy superior comfort and reliability.

DURABILITY

Tough, time-tested Perma-Shield® exteriors.

The exclusive Andersen® Perma-Shield® system gives our windows and doors a tough protective shell that safeguards the wood inside. It repels water, resists dents and stays beautiful for years.*

RELIABILITY

Quality so solid, the warranty is transferable.*

Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each owner to the next. And, because it is not prorated, the coverage offers full benefits, year after year, owner after owner. So it can add real value when you decide to sell your home.

Built for years* to come.

Our products are built strong to last long.* We use the right materials in the right places, including solid wood, fiberglass and our own Fibrex® composite material. These give our windows and doors superior strength, stability and long-term* beauty.

Never needs painting.

The Perma-Shield® exteriors on Andersen® windows and doors won't peel, blister, flake or corrode,* so they are virtually maintenance free. They come in the four colors most popular with homeowners: White, Sandtone, Terratone® and Forest Green.

WINDOWS AND DOORS WITH
StormWATCH
PROTECTION

We offer options for the harshest weather environments.

Windows and doors with Stormwatch® protection meet building code requirements in many Gulf and Atlantic coast states.** Products with Stormwatch® protection are energy efficient, resist the effects of salt water and stand up to hurricane-force winds and wind-borne debris! For details visit: andersenwindows.com/coastal.

ARE YOU REPLACING, REMODELING OR BUILDING?

Some aspects of window and door selection are common across all types of projects.

You want windows and patio doors that are energy efficient, have high-quality materials, allow multiple design choices and display long-term beauty and durability. But there are other considerations you should take into account based on the specific type of project you're doing — replacing, remodeling or building. Whatever the nature of your project, remember: When you work with Andersen, you're getting the widest array of options to help you solve your problems and achieve the windows and doors of your dreams.

Look for these icons on the pages that follow to find specific tips and suggestions relating to each kind of project.

REPLACE

Andersen has a large selection of windows and patio doors that are ideal for replacement projects, including insert windows that are made specifically for replacement. All of our replacement solutions, like our new replacement casement window and tilt-wash double-hung insert window, are available in custom sizes for a precise fit. You'll enjoy instant comfort with virtually no maintenance, plus energy savings and long-lasting* beauty.

REMODEL

Deciding to remodel the home you've been living in gives you a great opportunity to make it your own and capture your unique vision. The windows and patio doors you choose can play dramatic roles. Create a new view. Add stunning light. Transform your home's exterior appeal. Enhance your interior décor. And, of course, greatly improve your home's energy efficiency. Andersen gives you an array of choices to capture your vision, from colors to distinctive hardware and more.

BUILD

Building a new home is your chance to do it your way, and make it last. It's one of the largest investments you'll ever make, and the quality of the windows and patio doors you choose will greatly impact the quality and energy efficiency of your home. For homeowners wanting beauty, performance and value, Andersen offers the best of all possible worlds. Choose your interiors, exteriors, styles and accessories from the impressive array Andersen offers. Then sit back and enjoy for years* to come.

HOW DO WINDOWS & DOORS INFLUENCE STYLE?

ARTS & CRAFTS

The Arts & Crafts, or Craftsman, home style is marked by a sense of the familiar, the handmade, the “craftsmanship” of design. Attributes of this style include:

- Large glass and single glass openings
- Grilles in the upper sash of the double-hung windows
- Art glass for that distinctive design touch
- 4 ½"-wide flat window trim with sill nose
- Windows and siding are similar in tone; window trim is usually a warm, contrasting color

COLONIAL

Colonial today refers to a host of highly popular styles and blended designs. In fact, many homeowners are remodeling other styles of homes, like Ranch, to look more Colonial. Attributes of this style include:

- Dormers and divided light double-hung windows
- Clapboard siding and shutters
- Fan light over entry door
- 3 ½"- or 4 ½"-wide flat window trim, often with a decorative cornice
- White or light gray windows with stark, contrasting window trim

COTTAGE FARMHOUSE

As a traditional style, Cottage Farmhouse beckons you back to the casual, simple, relaxed and delightful homestead of an earlier time. Attributes of this style include:

- Grilles add a design touch to double-hung windows
- Double-hung windows are tall and narrow with a simple grille pattern
- 4 ½"-wide flat window trim, frequently with a decorative drip cap
- The most popular window and window trim colors are white and forest green, used in any combination

YOUR HOME IS FAR MORE THAN A DWELLING.

It's a design statement that speaks volumes about you. Andersen has perfected the art of creating products that are aesthetically ideal no matter what your style. Our windows, doors and exterior trim work in harmony, not only with each other, but also with your home's architecture. The end result is an enduring investment — timeless beauty and lasting* quality at an exceptional value.

MODERN

The Modern style incorporates clean lines, simple forms and open floor plans. Attributes of this style include:

- Expanses of glass heighten the interior and expand space and light
- Casements and awnings are widely used window types in Modern homes
- 2"-wide brick mould window trim used to minimally highlight the windows or to create a shadow line

RANCH

Blending styles is becoming more and more popular, and Ranch homeowners are remodeling interiors to be more contemporary and exteriors to be more traditional. Attributes of this style include:

- Ribbon or large plate-glass windows are common
- Divided light windows enhance both curb appeal and interior aesthetics
- Double-hung, casement and awning windows are used alone and in combinations
- Window trim is either 3 ½"-wide flat or 2"-wide brick mould and typically coordinates with other features such as roofing or masonry

YOUR HOME STYLE

The styles outlined here represent just some of the more popular architectural approaches seen in homes today. The full range of home designs extends even beyond these to include many combinations. Your home may be a blended style, or may fall specifically into a genre or suite described here. Whatever look you're trying to achieve, Andersen can help you get there.

HOW WILL YOU **DESIGN** WITH? WINDOWS & DOORS?

Are you matching an existing look? Creating a new look? Seeking architectural authenticity? Through colors, materials, shapes, trim, accessories and more, Andersen gives you the critical tools to achieve your look, style and unique vision.

CREATE A NEW LOOK

When designing a new home, you use floor plans, but it's also a good idea to use wall plans.

REPLACING

When choosing replacement products, look at the materials used to make them. Andersen® replacement windows and doors have rich wood interiors that add value to your home. So you're not just replacing, you're upgrading.

When you have a look and style you want to emulate, you can accomplish it with Andersen through our array of choices.

Window location can make a dramatic difference. Position a large window to celebrate your home's surroundings. Or configure your windows or doors to accentuate the light or warm the room.

BLUR THE LINE

Walls of glass bring you in harmony with your surroundings. When the distinction between outside and inside fades, outdoor spaces start to feel like rooms.

HOW CAN YOU ACHIEVE YOUR LOOK, STYLE & VISION?

Window and door projects are seldom just “window and door projects.” Think about windows and patio doors as having a powerful impact on your home’s light, view and outdoor living.

REMODELING

Consider the sightlines when you install windows. Depending on your room arrangement, you should be able to see out the window from both seated and standing positions.

DESIGN WITH DIMENSION

Use window sequences to paint shapes with light. Achieve just the right look with repeating patterns or isolated statements that bring rhythm to a home.

CAPTURE THE LIGHT

Sunlight is an essential architectural tool. Design with careful window choice and placement, and you can transform an interior as the sun moves through the day.

WHAT ARE THE SIX SIMPLE? SELECTION STEPS?

When you break down the window and patio door selection process, it's really not that complicated. It involves a few basic steps: Start by picking the types of windows and doors you want. Then choose glass, your exterior and interior options. And, finally, enhance your selections with grilles, hardware and accessories. Andersen makes the selection process easy and the final product exquisite.

4

STYLE WITH GRILLES

6

ENHANCE WITH ACCESSORIES

Multiple options give your windows and doors a truly signature look.

Pages 28–29

CUSTOM SIZES

Look for this triangle throughout the catalog. It indicates that the product is available in custom sizes.

1

SELECT YOUR WINDOW & DOOR TYPES

WINDOW TYPES

DOUBLE-HUNG

A double-hung window has two vertically sliding sash in a single frame. Double-hungs lift open while remaining flush with the wall, making them ideal around patios, decks and walkways.

See page 32.

CASEMENT

Casement windows are hinged windows that, with a turn of a crank, open outward to the right or to the left. Casements are common above kitchen sinks and give you flexibility to group in stunning combinations.

See page 34.

AWNING

Awning windows are hinged at the top and open outward. They catch breezes from the left or right and are often used above, below or alongside stationary windows.

See page 34.

GLIDING

Gliding windows feature two sash, with at least one of the sash sliding horizontally past the other. They give you the advantages of double-hung windows with a more contemporary look.

See page 34.

STATIONARY

Stationary windows, as the name states, are windows that don't open. Often referred to as picture windows, they're typically used in combination with venting windows.

See page 36.

SPECIALTY

Specialty windows are stationary windows characterized by their special shapes, including curves and dramatic angles. They can make a signature statement in your home and provide a delicate lighting accent.

See page 36.

COMBINATIONS : Explore the many possibilities of putting shapes and sizes together.

To create your own design go to
andersenwindows.com/windowcentrics.

REPLACING

Replacement doesn't mean you have to put in the same type of window as your old one. For example, put a new, convenient casement window in place of your old and hard-to-operate double-hung. If you're changing window type, however, be sure to verify that the new window meets codes in your area.*

PATIO DOOR TYPES

BAY & BOW

Bay and bow windows are window combinations that project outward from a home. These dramatic combinations can add space, volume and light to a room and add more personality to any home.

See page 36.

GLIDING

With at least one panel that glides smoothly past another door panel, you'll get more room where you need it — inside or out.

See page 38.

HINGED INSWING

To save room in smaller areas such as balconies, patios and decks, you'll love the space-enhancing benefits of inswing patio doors.

See page 40.

HINGED OUTSWING

With panels that swing outward, these doors give you more usable space inside your room.

See page 40.

SIDELIGHTS & TRANSOMS

Expand your hinged patio door with elegant combinations, including sidelights, transoms and stationary door panels.

CHOOSE YOUR GLASS

Glass can affect energy efficiency more than any other part of a window or patio door — and not all glass performs the same. Some types of glass do a better job at insulating your home. Others provide greater clarity. You can even choose glass to filter out specific kinds of light. Andersen offers one of the industry's widest arrays of glass options, so you're sure to find the right choice for your climate and your home.

Do not remove until final inspection. Please retain for future reference.

Energy Performance Ratings

U-Factor indicates how well a product prevents heat from escaping. The lower the number the better.

Solar Heat Gain Coefficient measures how well a product blocks heat caused by sunlight. The lower the number the better.

Visible Transmittance refers to how much visible light comes through a product. The higher the number the better.

REPLACING, REMODELING OR BUILDING

No matter what type of project you're doing, choosing your glass is key. Andersen® High-Performance™ Low-E4® SmartSun™ glass blocks unwanted solar heat while allowing light to stream through. The result is lower energy costs and protection for furniture, carpets and drapes by blocking out 95% of the damaging ultraviolet rays that can cause fading.

BEST-IN-CLASS GLASS

High-Performance™ Low-E4® Glass

It's up to 70% more energy efficient than ordinary dual-pane glass* and cuts energy bills up to 25%.**

High-Performance™ Low-E4® SmartSun™ Glass

It gives you the benefits of Low-E4® glass, plus it helps shield your home from the sun's heat and filters out 95% of harmful UV rays while letting sunlight shine through.

High-Performance™ Low-E4® Sun Glass

It's tinted for maximum protection from the effects of intense sunlight while providing all the benefits of Low-E4® glass.

Additional glass options including tinted, laminated, tempered and clear dual-pane are available.
Contact your Andersen dealer for details.

Patterned Glass

Patterned glass lets in light while obscuring vision and adds a unique decorative touch to your home.

CHOOSE YOUR DOOR HARDWARE

Choose Andersen® patio doors, and you'll enjoy a wider selection of hardware styles and finishes than you'll find with just about any other manufacturer. We offer six distinctively different styles — Yuma®, Encino®, Anvers®, Newbury®, Covington™ and Whitmore® — in solid, forged brass with eight metal finish options. And we offer two styles — Tribeca® and Albany — in diecast zinc with durable powder-coated finishes. Also, be sure to check out our additional hardware options such as exterior keyed locks, matching hinged finishes and more.

ENHANCE WITH ACCESSORIES

Bring a whole new level of protection and style to your windows and doors with Andersen® insect screens — including the innovative TruScene® insect screen technology. You can also add beauty and enhance your home's style with elegant art glass panels.

INSECT SCREENS

FRAMES

For casement and awning windows, TruScene® insect screen frames are available in stone, white or natural pine that can be stained to match the window. Insect screen frames for all other windows are installed on the exterior of the window and match the unit's exterior color.

ANDERSEN
INNOVATION

TRUSCENE® INSECT SCREENS — 50% GREATER CLARITY

Exclusive Andersen® TruScene® insect screens provide more than 50% greater clarity than our conventional insect screens for a beautifully unobstructed view. And they let in more fresh air and sunlight, while doing a better job of keeping out small insects.

FULL OR HALF WINDOW INSECT SCREENS

Full insect screens are available for all Andersen® windows. Andersen also offers the option of half insect screens for the lower sash of our tilt-wash double-hung windows.

PATIO DOOR INSECT SCREEN OPTIONS

All hinged and gliding patio door insect screens have a long-lasting* fiberglass screen cloth with a charcoal finish. Available in White, Sandtone, Terratone® and Forest Green colors to match the exterior of the door.

GLIDING PATIO DOORS

Gliding Insect Screen
Gliding insect screens are available for two- and four-panel doors.

Retractable Insect Screen
The retractable insect screen is installed on the exterior of the door and opens side-to-side across the width of the opening. When the insect screen is not in use, it neatly retracts into a small canister. Available for two-panel patio doors.

HINGED — INSWING PATIO DOORS

Hinged Insect Screen
Available for single-panel doors.

Double-Hinged Insect Screen
Available for two-panel double-jamb hinged doors.

Gliding Insect Screen
Available for all two- and three-panel doors.

HINGED — OUTSWING PATIO DOORS

Retractable Insect Screen
The retractable insect screen is installed on the interior of the door across the width of the opening. When the insect screen is not in use, it neatly retracts into small canisters. Retractable insect screens for outswing doors are available with White, Pine, Oak or Maple interiors. Available for single- and two-panel doors.

ART GLASS

With art glass from Andersen, you can enhance a transparent look, express your individuality or add a touch of elegance. These finely crafted inserts are designed to fit most Andersen® windows and patio doors. Go to andersenwindows.com/artglass for more details.

Woodwright® windows are a great choice for traditional architecture. With their thick, sloped sills, precision-milled wood interiors and historically accurate grille patterns, these windows bring authentic old-world character to homes of all ages.

Unequal Arch Archtop Springline™

Woodwright® full-frame windows offer you the ability to select from a simple rectangular shape or create a distinct, architecturally inspired look with graceful arches.

REPLACEMENT

400 SERIES TILT-WASH WINDOWS

Our most popular double-hung window.

Year after year, the Andersen® 400 Series tilt-wash window is our best-selling double-hung window — and for good reason. Extremely energy efficient, it gives you a wide array of decorative and performance options.

Andersen® 400 Series tilt-wash full-frame windows are available with impact-resistant glass and structural upgrades to meet the tough building codes of hurricane-prone coastal areas. See your local code official for specific requirements.

REPLACING A WINDOW?

400 Series tilt-wash insert windows can save you time and money. (See opposite page.)

CUSTOM SIZES

REPLACEMENT

200 SERIES TILT-WASH WINDOWS

Our 200 Series tilt-wash double-hung window comes in our most popular sizes and gives you our most requested options. You still get low-maintenance exteriors and real wood interiors, along with our renowned Owner-2-Owner® limited warranty.

200 SERIES NARROLINE® WINDOWS

Our Narroline® window combines time-tested performance with a timeless design that features sleek profiles to maximize your view. It's available in our most popular sizes and has a non-tilting sash.

REPLACING

There are many reasons to replace your old windows, and just as many advantages. Whether you want to increase energy efficiency, update the style of your home or simply replace windows that just don't operate like they should, Andersen has replacement solutions that are perfect for the job. Look for them on these two pages, plus pages 34–35.

Double-hung replacement made easy.

Insert replacement windows are specially designed to save you time and money. They fit into your existing wood window frame without removing interior or exterior trim, so there's less disruption to your home, and its original character is preserved. You simply remove your old window and install the new insert window in the existing opening. Another advantage: You can do it from inside your home — which makes a big difference if you're replacing windows on the second level. All Andersen® insert windows come with screws, shims and flexible foam backer rod to make installation easier.

To see if an Andersen insert window is right for your home, visit andersenwindows.com/replacement, where you can download a measuring guide and watch an installation video.

NARROLINE® CONVERSION KIT

If your home has Andersen® Narroline® windows that were made after 1967, our quick conversion kit can turn them into convenient, tilt-wash double-hung windows with High-Performance™ Low-E4® glass. It installs easily with less mess than ordinary window replacement. Plus, it matches your existing window inside and out and is backed by our full Owner-2-Owner® limited warranty.

CASEMENT | AWNING | GLIDING WINDOWS

400 SERIES CASEMENT WINDOWS

Made like no other.

Andersen® 400 Series casement windows start with a design that is extremely energy efficient. Add to that a solid-wood sash covered inside and out by low-maintenance Perma-Shield® cladding to protect against water damage. Then give them rich, natural pine interiors and it's easy to see why they have become our best-selling window.

Conventional 400 Series casement windows are available with upgrades to meet the tough building codes of hurricane-prone areas. See your local code official for specific requirements.

REPLACING A WINDOW?

400 Series replacement casement windows can save you time and money. (See opposite page.)

400 SERIES AWNING WINDOWS

Beautiful...versatile...practical.

Andersen® 400 Series awning windows give you the same features and outstanding performance platform as our casement windows. In addition, they add design options. For example, placed high on a wall, awning windows can bring light and fresh air into your home without compromising privacy.

Conventional 400 Series awning windows are available with upgrades to meet the tough building codes of hurricane-prone areas. See your local code official for specific requirements.

REPLACING A WINDOW?

400 Series replacement awning windows can save you time and money. (See opposite page.)

400 SERIES GLIDING WINDOWS

Designed to be one of the best-engineered windows of its kind.

In addition to providing top energy efficiency, reliable performance and uncommon beauty, both sash on our 400 Series gliding windows can be opened to the left or right to give you improved ventilation.

200 SERIES GLIDING WINDOWS

Easy operation. Excellent energy efficiency.

Andersen® 200 Series gliding windows feature a single operating sash. These windows are available in our most popular sizes with our most requested options and give you low-maintenance exteriors, real wood interiors and the security of our renowned Owner-2-Owner® limited warranty.

REPLACING OR REMODELING

If you're remodeling or replacing windows, you should know that building codes sometimes require egress windows* — ones that can be used as an emergency exit. Casement windows are often your best choice for egress, because they provide a larger passageway than double-hung or gliding windows. And here's another Andersen advantage: If the other windows in your home are double-hungs, our 2 ¼-inch-width grille running across the center of a casement window simulates the look of a double-hung. See page 22 for example.

Casement and awning window replacement made easy

If you're replacing old casement or awning windows, Andersen makes replacement windows specifically for the job. They come fully prepped for easy installation with the nailing flange removed, holes predrilled, and a convenient installation kit including screws, shims and flexible foam backer rod to help you install like a pro.

SINGLE-ACTUATION LOCK

This Andersen® lock is engineered to secure casement windows firmly at multiple points with just one handle. The single-actuation lock also features a "reach-out" action that pulls in the sash for a weathertight seal.

CIRCLE TOP™

Also available to match Andersen® 200 Series double-hung windows.

OVAL

CIRCLE

SPRINGLINE™ FLANKER

ANDERSEN® 400 SERIES SPECIALTY WINDOWS

These specialty windows let you complement your home's architecture with graceful curves, elegant arches and dramatic angles. Used alone or in combination with other windows, they heighten curb appeal and enhance the character of your home.

RECTANGULAR WINDOWS

Andersen makes picture and transom windows to complement the sizes and profiles of Andersen® 400 Series double-hung, casement and awning windows, as well as Andersen 200 Series double-hung windows.

BAY & BOW WINDOWS

Andersen® bay and bow windows are window combinations that project outward from a home. These windows also project the beauty and personality of your home inside and out.

REPLACING OR REMODELING

If you're planning to replace a group of windows, consider replacing them with a bay or bow window to provide a beautiful interior cove that can make a room appear larger. A wide range of double-hung, casement and picture window combinations is possible.

FLEXIFRAME® WINDOWS

Flexiframe® windows are available in custom sizes and can be designed in nearly any shape made with straight lines, providing no angle is less than 14 degrees. When other window companies say it can't be done, Andersen does it easily and beautifully.

WINDOWS AND DOORS WITH
StormWATCH
PROTECTION

Andersen® 400 Series stationary windows are available with impact-resistant glass and structural upgrades to meet the tough building codes of hurricane-prone coastal areas. See your local code official for specific requirements in your area.

GLIDING PATIO DOORS

400 SERIES FRENCHWOOD® GLIDING PATIO DOORS

Traditional French door styling. Convenient gliding design.

With their wide wood profiles, Frenchwood® gliding patio doors give your home the old-world character of traditional French doors while, at the same time, they give your family the convenience and space savings no hinged door can provide. And, because they're Andersen® patio doors, they are just as effective in sealing drafts and water out of your home. Add to that quality construction with mortise-and-tenon dowel joints and self-adjusting dual ball-bearing rollers, and you can be sure they'll deliver smooth sliding and solid performance for years.* Our Frenchwood® gliding doors offer an extensive array of options and accessories and are available in two- and four-panel configurations to fit virtually any size requirements.

Stationary Panel

Two-Panel Right Open

Two-Panel Left Open

Four-Panel Center Open

Also available with 200 Series Narroline® patio doors.

All 400 Series Frenchwood® patio doors are available with impact-resistant glass and structural upgrades to meet tough building codes of hurricane-prone coastal areas.**

REPLACING

If you're replacing a three-panel door, you can add a stationary panel to any Andersen® two-panel gliding door. They all come in custom sizes, so you're sure to get a perfect fit.

AUXILIARY FOOT LOCKS

Optional for all Andersen® gliding patio doors, these special locks provide an extra measure of security when the door is in a locked position. Available finishes coordinate with our door hardware.

REACH-OUT LOCKING SYSTEM

Our gliding patio doors have a unique reach-out locking system that pulls the door panel snugly into the jamb. The result is enhanced tightness against the weather and improved security.

SIDELIGHTS & STATIONARY PANELS

For a special design touch, frame your Andersen® patio doors with a border of Andersen® sidelights or stationary panels. They dramatize the exterior appearance, enhance your view and create a larger wall of light.

BALL-BEARING TRACK SYSTEM

Andersen gliding patio doors have panels that move on ball-bearing rollers and a durable track capped with stainless steel. The result is long-lasting,* smooth, effortless operation.

200 SERIES NARROLINE® PATIO DOORS

Let the sun shine in.

Our 200 Series Narroline® gliding patio doors combine the beauty of natural wood with sleek contemporary profiles to maximize your view and fill your home with sunlight. Available with our most popular options, heights up to eight feet and four-panel configurations that can give your home walls of light over fifteen feet wide.

200 SERIES PERMA-SHIELD® PATIO DOORS

Low maintenance inside and out.

A tried-and-true classic, Perma-Shield® patio doors are protected inside and out with rigid vinyl cladding to give your home a contemporary look and energy-saving performance, while keeping maintenance to a minimum. They are available with the most popular options and accessories.

HINGED PATIO DOORS

400 SERIES FRENCHWOOD® HINGED PATIO DOORS

Patio doors as beautiful as all outdoors.

Frenchwood® hinged patio doors not only open your home to the world outside, they bring the beauty of nature inside. They can flood a room with sunlight and provide panoramic views, and their wide wood profiles add an undeniable elegance to their surroundings. Yet they are just as effective in sealing the elements out. And with quality construction like mortise-and-tenon dowel joints and a multi-point locking system that seals the doors tight at the top, center and bottom, they're built to stay that way for years.* Our Frenchwood® hinged doors offer an extensive array of options and accessories, including sidelights and transom windows, and are available in two operating styles: inswing and outswing.

All 400 Series Frenchwood® patio doors are available with impact-resistant glass and structural upgrades to meet tough building codes of hurricane-prone coastal areas.**

*Visit andersenwindows.com/warranty for details.

SIDELIGHTS & TRANSOMS

For a special design touch, frame your Andersen® patio doors with a border of Andersen® sidelights and transom windows. They dramatize the exterior appearance, enhance your view

REPLACING

Walls of patio doors can dramatically change the appearance of your home, both inside and out. They have the ability to bring the outside indoors by making the most of a beautiful view, as well as allowing natural light and fresh air to flow deep into the room.

MULTI-POINT LOCKING SYSTEM

Our Frenchwood® hinged patio door features a locking system that positions two hook bolts above and below the center deadbolt. When you engage the lock, these two bolts tighten the door against the frame to help keep the weather out and secure the door firmly.

COMBINATIONS

Be creative in putting together your ideal hinged patio door design. For example, consider a three-panel door with two moving panels and one stationary panel. You'll love the view, and the look will transform your home's beauty.

400 SERIES FRENCHWOOD® HINGED INSWING PATIO DOORS

Frenchwood® hinged inswing doors are a good choice if they open to a small balcony, deck or patio, and are often used in colder climates where snow might build up outside the door. They are available in one-, two- and three-panel configurations.

400 SERIES FRENCHWOOD® HINGED OUTSWING PATIO DOORS

Frenchwood® hinged outswing doors are a good choice if you're short on interior space. Often used in warmer climates, they allow you to place furniture, artwork and decorations closer to your interior entryway. They are available in one- and two-panel configurations.

200 SERIES HINGED PATIO DOORS

Traditional styling. Modern convenience.

Our 200 Series hinged patio doors are virtually maintenance-free inside and out. Their hook-deadbolt lock provides more strength, a more weathertight seal and added security compared to ordinary deadbolt locks. They are available in one- and two-panel configurations.

ARCHITECTURAL ENTRANCEWAYS, WINDOWS & PATIO DOORS

Andersen® architectural windows and doors are carefully handcrafted to complement our 400 Series and 200 Series products with dramatic sizes and extraordinary shapes that give your home a signature look. They include single-hung, double-hung, casement, awning and specialty windows, as well as hinged inswing, hinged outswing and outswing folding patio doors. All are available in 21 standard colors. Custom colors, sizes and shapes are also available. If you can dream it, Andersen architectural windows and doors can bring it to life.

ENTRANCEWAYS

Andersen® architectural entranceways combine exceptional beauty and detail with dramatic sizes and shapes to turn ordinary entranceways into grand statements.

The very finest grades of oak, maple, cherry, pine, mahogany, alder and fir.

Other wood species are available through special order.

Divided light grilles in standard and custom patterns.

Sidelights and transoms give you increased design flexibility.

Optional handle hardware comes in a variety of styles and finishes.

A wide variety of glass options offer energy efficiency and beauty.

Decorative glass options are also available.

BUILDING & REMODELING

Windows with unusual shapes let you create dynamic window combinations that can distinguish your home from all others.

SPECIALTY WINDOWS

Andersen® architectural specialty windows let you choose from 35 uncommon shapes, including elegant arches, striking angles and compelling curves.

SINGLE- AND DOUBLE-HUNG WINDOWS

Monumental sizes and a variety of gracefully rounded tops distinguish these windows from ordinary single- and double-hungs. They are available in sizes as wide as 5'-5" and heights exceeding ten feet.

CASEMENT AND AWNING WINDOWS

Andersen® architectural casement and awning windows offer easy operation along with old-world style. They include French casements — twin sash inside of one frame with, unlike ordinary casements, no mullion bar between them, giving you a totally unobstructed view. Architectural casement windows are available in rectangles, trapezoids and a variety of arched shapes.

PATIO DOORS

With features like Romanesque arches, towering transoms and insulated decorative art glass, nothing else quite matches the grandeur architectural patio doors can bring to your home.

OUTSWING FOLDING PATIO DOORS

When you want to blur the line between indoors and out, these are the doors to choose. When closed, they are a stately wall of light. When open, they fold virtually out of sight. Choose from configurations up to 48 feet wide and operating modes that let you open the doors from the left, right or center.

A WIDE CHOICE OF EXTERIOR AND INTERIOR OPTIONS

EXTERIOR COLORS

INTERIOR OPTIONS

Printing limitations prevent exact color duplication. See your Andersen dealer for actual color samples. Naturally occurring variations in grain, color and texture of wood make each window one of a kind.

*Actual wood species is Sapele, also known as African mahogany.

IMPROVING THE VIEW OUTSIDE.

Respect for the environment is nothing new at Andersen.

For more than a century, it's been part of who we are. Our commitment to recycle and reclaim materials began simply because it was good business. Now it's part of our commitment to sustainability and responsible stewardship of all our resources. Andersen is committed to providing you with long-lasting, energy-efficient windows and doors.

Andersen makes windows and doors that meet **ENERGY STAR**[®] performance requirements in all 50 states. Andersen Corporation has earned the 2011 ENERGY STAR[®] Partner of the Year award.

Andersen is a charter member of the **U.S. Green Building Council** and a strong supporter of its LEED[®] (Leadership in Energy and Environmental Design) Green Building Rating System.

Andersen was the first window and door manufacturer with **Green Seal**[™] certified products.
